

# Guidance on READ Budget Submissions

**COLORADO**  
Department of Education

## Introduction

The updates to the READ Act in SB19-199 emphasize the importance of using scientifically and evidence-based instructional practices through changes to improvement planning, external program evaluation, accountability for fund usage, and teacher training.

SB19-199 also includes a district budget reporting requirement. To fulfill this statutory requirement, the department has created a budget submission tool that asks Local Education Providers (LEPs) to identify which of the seven statutory intervention categories they intend to use in the coming budget year to support students identified as having significant reading deficiencies (SRDs). Annually, prior to receiving a distribution of READ funds, all LEPs are required to have an approved budget of their planned use of READ per-pupil intervention funds for the upcoming school year.

## Budget Submission Access

LEPs will access the READ budget submission through the [READ Budget Submission website](#). To get permission to log into the READ budget submission platform you will need to contact your Local Access Manager (LAM) and have them assign you to the “READACTBUDGET” group in the Identity Management (IdM) system.

## Budget Review Process and Timeline

District budgets will be reviewed from April - June to ensure they contain all required components. After districts receive their READ allocation, they are required to update budgets to reflect actual costs and updates to line items that reflect final READ allocations. The budget revision process typically starts in January and ends in March.
